+1 (425) 301-6071 | jaredlemkedev@gmail.com | www.linkedin.com/in/jaredlemke | <https://github.com/JL347>

Experienced Software Engineer with a passion for creating elegant and user-friendly web applications. Proficient in frontend technologies, including React, JavaScript, TypeScript, Next.js and Tailwind. Skilled at translating design concepts into functional, responsive interfaces and committed to continuous learning and staying up to date with industry trends.

Technical Skills:

- Languages - JavaScript, TypeScript, Apollo GraphQL, Ruby, PostgreSQL, HTML5, CSS3
- Frameworks/Libraries - React, Next.js, Ruby on Rails, Tailwind CSS
- Tools - GitHub, AWS, Trello, Storybook, Figma, Linear

Professional Experience:

Requis, Inc.

Remote | 11/2019 – 11/2024

Software Engineer | 06/2020 – 11/2024

- Developed the entire Frontend, v2 experience of the Procurement module in a complete rewrite of the platform utilizing React, JavaScript, TypeScript, Next.js and Apollo GraphQL
- Implemented features to improve user experience, including but not limited to, the ability to bulk create, update and delete data and files, allowing a user to upload .csv files, allowing a user to download tables of data as well as .csv files, and the ability for a user to drag and drop UI elements
- Utilized Tailwind CSS and UI to create a seamless, user friendly and responsive design across the whole platform
- Collaborated with cross-functional teams, including Product, Design and Operations, to build features and improvements based on user feedback and requests
- Helped in the ongoing process of development best practices by performing code reviews, pair programming sessions, and domain knowledge sharing

Junior Software Engineer | 11/2019 – 06/2020

- Worked on the v1, React and Ruby on Rails platform performing a variety of tasks such as bug fixes, UI and UX improvements and technical support requests
- Utilized custom CSS to improve overall design and UI of the platform

HoursLogger

San Diego, CA | 08/2019 – 10/2019

Full Stack Web Developer Intern

- Produced full stack features for time tracking and invoicing platform using React and Ruby on Rails
- Created a custom password strength login utilizing libraries and custom CSS

Education:

LEARN Academy

San Diego, CA | 2019

Certificate in Full Stack Web Development
